There is no reason for these massive, deadly and costly forest fires in California except that forest management is so poor. Billions of dollars are given each year, with so many lives lost, all because of gross mismanagement of the forests. Remedy now, or no more Fed payments!

Unreal. In a state's & people's time of need... THIS is what you think to say. Communities burning to the ground, American corpses & countless wildlife lost in flames, & this is what you offer. You truly are the most graceless, piece of shit president this country has ever seen.
